Sub: Administrative/disciplinary action against Malpractices Detected by Executive

A Zonal Railway has recently detected two cases wherein salary payments have been made to non- existent staff. These two cases were detected by the Personnel/Finance Departments who subsequently handed over these cases to Vigilance for further inquiry.

Administrative/ disciplinary action against malpractices is the primary responsibility of the Executive. It is important that the concerned department which has discovered the fraud takes appropriate administrative /disciplinary action on its own initiative in cases where clear irregularity has been detected by them. Administrative action such as suspension/transfer to prevent further damage and tampering of evidence should be taken immediately. Issuing of charge-sheet for fraud discovered by the department itself should be initiated by the department concerned where clear cut irregularity has already been identified, instead of waiting for a further investigation by vigilance. Immediate action is necessary to ensure that there is visible impact and a message that the administration will come down hard on corruption is sent down the line.

Nevertheless, when cases where clear-cut prima facie corruption/irregularity have occurred, such as in the cases mentioned above, and these have been handed over to vigilance for further investigation, they must be investigated on top priority . Vigilance must work towards completing the investigation reports and putting them up as per procedure within a period of 15 days. Delay occurring due to non-availability of documents or obtaining of clarificatory statements etc. may be brought to the notice of the PHODs/GM for quick resolution.

Necessary action in this regard may be taken accordingly. This has been issued with approval of PED/Vigilance.
